

### **GLOGAR ULTRASONIC BATHS MU-28L LCD**

#### CHF 2'500.00

#### **Furnishing**

Programmable washing time 1-30 minutes
Temperature 20-75 ° digitally adjustable
Pulse function for quick degassing
Display and storage of time and temperature
AUTO-OFF Automatic shutdown after two hours of inactivity

# **Technical specifications**

Tank capacity 28 liters

External dimensions LxWxH 530 x 325 x 400 mm

Ultrasonic frequency 38 kHz

# **PRODUCT DESCRIPTION**

The Glogar high-performance ultrasound devices of the MU series are versatile and are used in the manufacturing and workshop area, as well as in the medical and pharmaceutical industries.

The devices are made entirely of stainless steel and tried with highly effective 38 kHz or 40 kHz ultrasonic transmitters.

If there is a lot of oil or grease, the oil is separated from the cleaning basin by means of surface washing.

The **robust** and **precise workmanship**, as well as the excellent **price-performance ratio**, make the devices of the MU series the ideal all-round solution.
